

DSTS - CUSTOMER'S APPLICATION

Company Name: _____
 Company Representative Name: _____
 Anticipated Initial Delivery Date: _____
 Date Questionnaire Completed: _____

QUESTION	CUSTOMER REPLY
1. What is your application?	
2. Do you need 1 channel or 2 channels?	
3. Do you need Field-Ready package or Rackmount package?	
4. What is the required resolution and accuracy for temperature measurements?	
5. What is the range of temperature to be measured?	
6. What is the required resolution and accuracy for strain measurements?	
7. What is the range of strain to be measured?	
8. What spatial resolution and accuracy is desired? (Distance accuracy of measurements)	
9. What is the desired sensing range in this application?	
10. Do you want to simultaneously measure temperature and strain, or separately?	
11. What is the desired data acquisition time?	
12. Is optical fiber installed?	
13. If yes to #12, what type of fiber is installed (if not Single-Mode-Fiber, then please specify)?	
14. If yes to #12, is a 10-metre length sample of the installed fiber available for us to calibrate the equipment?	
15. If no to #12, who will install the fiber and what type of fiber will be installed?	
16. Where will unit be housed?	
17. What will be the operating temperature of the environment in which the unit will be housed?	
18. Any additional information?
